Prof. dr. Ibrahim Jusufranić, osnivač i rektor
Internacionalnog univerziteta Travnik

Koristim priliku, kao rektor i profesor na ovom Univerzitetu, da im se zahvalim na dosadašnjim rezultatima i afirmaciji našeg Univerzitet. U relativno kratkom periodu, od osnivanja do danas, naš Univerzitet je postao prepoznatljiv i van granica Bosne i Hercegovine. O toj prepoznatljivosti govore mnoga međunarodna priznanja, od Sokrata u Dablinu, Beča, Rima, Zagreba, Beograda, kao i potpisani međunarodni protokoli o saradnji sa svjetski priznatim univerzitetima, međunarodna razmjena studenata i drugo. Svaki naš učesnik u nastavnom procesu, asistenti i profesori, studentska služba, rukovodioци postdiplomske i diplomske studije i dekani su vama uvijek na usluzi. Držimo se devize da ste vi ovdje radi sticanja znanja, a mi radi vas. Svesni smo i poteškoća u radu, ali zajedničkim trudom ih možemo riješiti. Budite sigurni da ste vi i fakulteti Internacionalnog univerziteta Travnik u Travniku, na kojima studirate, na prvom mjestu.

Dragi studenti,

Zapamtite! Morate stalno učiti. To evropski sistem traži ili kako ga mi zovemo Bolonjski obrazovni proces i zato što se tehnologija brzo mijenja, zastarijeva. Za vas je bitno da znate da se vještine uče. Ako pored znanja nemate vještine vi niste sposobni i neupotrebljivi ste. Morate znati šta vas čeka u životu. Morate imati motivaciju i za teoretska i praktična znanja. Jedno bez drugoga ne ide. U životu se mora znati da je najveći rizik ne prihvativi nikakav rizik. Ne postaje se slučajno uspješnim jer se to postiže radom i učenjem. Uz to, ako pozitivno mislite, vi ćete u životu privlačiti takve događaje. Treba znati da tri puta vode do mudrosti: razmišljanje – ono je najbitnije, odgoj – ono je najlakše i iskustvo – ono je najneugodnije.

Poslovica kaže da do cilja vodi hiljadu puteva, a od cilja samo jedan. Ako niste nikome korisni morate znati da nikome niste vrijedni. Vrijedite onoliko koliko ste drugome potrebni i korisni, a to ne možemo postići bez uključivanja u zajednički život.

Za uspjeh u životu pored obrazovanja potreban je: timski rad, smisao za organizaciju i rad na internetu. Da bi se opstalo na tržištu bilo pojedinačno ili u kompanijama mora se znati kako se donose odluke. Vrlo je bitno znati da se odluke donose brzo, pravilno i kvalitetno. Za sprovođenje tih odluka potrebno je znati komunicirati. Prije svega morate razumjeti komunikaciju i znati pregovarati. Obzirom da se problemi svakog časa javljaju moraju se brzo uočavati, a i brzo i tačno rješavati.

Današnje društvo traži od vas da, pored struke kojom se bavite, morate imati i druge kvalifikacije, a to je da ste odlučni, da ste dobri u samostalnom i u timskom radu, brzo uočavate i rješavate probleme. Od vas se traži da ste kreativni, da uvijek mislite i razmišljate kako biti još bolji. Treba znati kako treba učiti i kako naš mozak funkcioniše. Neke se stvari dugoročno pamte, a neke kratkoročno. Često student dođe na ispit i kaže "učio sam, al zaboravio". Međutim, bitno je znati kako naučiti.

REMARKS BY THE RECTOR

Dear students,

Welcome to the academic world and ours, and from today and yours International University Travnik. It is our immeasurable joy because you have chosen us for the acquiring your knowledge and academic degrees. We are confident that your decision to study at our university encouraged your knowledge about us, our successes in a number of recognizable graduates, postgraduate and doctoral students. On the successes so far, in the first place we must thank previous generations of students, our hardworking and industrious professors, assistants and associates.

Professor Ibrahim Jusufranić, Ph.D., founder and the rector of the International University Travnik

I take this opportunity, as rector and professor at the University, to thank them for the previous results and affirmation of our University. In a relatively short period, since its foundation, our University became known beyond the borders of Bosnia and Herzegovina. About this recognition speaks many international awards, from Socrates in Dublin, Vienna, Rome, Zagreb, Belgrade, and signed international protocols on cooperation with world-renowned universities, international student exchanges and other. Each of our student in the teaching process, teaching assistants and professors, student services, heads of post-graduate and graduate students and deans are you always at your service. You are here in order to acquire knowledge, and we are here for you. We are aware of the difficulty of the work, but with the joint efforts we can solve them. Be sure that you and the faculties of the International University Travnik, where you study, are in the first place.

Dear students,

Remember! You need to learn constantly. It asks the European system or as we call Bologna educational process and because the technology is changing rapidly and statute of limitations.

For you it is important to know that the skills are learning. If you besides your knowledge do not have skills you are not capable and unusable. You must know what's waiting for you in your life. You have to have the motivation and the theoretical and practical knowledge. One without the other is not working. In life you must know that the biggest risk is not to accept any risk. You do not become accidentally successful because it achieves by working and learning. If you think positive, you will attract life in such events. You must know that three ways leads to wisdom: thinking – what is most important, nurture – it is the easiest and experience – what is most unpleasant.

The proverb says that to the goal is leading a thousand ways, and from goal only one. If you are not useful to anyone you have to know that you are not worthy to anyone. You worth as much as you are necessary and useful to other, and that we can not achieve without the involvement in the community life.

For success in life besides education it is needed: teamwork, sense of organization and operation of the Internet. In order to survive in the market either alone or in the company you have to know how decisions are making. It is vital to know that decisions are making quickly, correctly and quality. For the implementation of these decisions you need to know to communicate. Firstly you need to understand communication and to negotiate. Considering that problems occur at any moment they must be notice quickly, and quickly and accurately resolved.

Today's society demands from you to, besides your profession, you must have other qualifications, and that is that you are determined, you're good at independent and team work, quickly solve problems. You are required to you creative, to always think and think how to be even better. You need to know how to learn and how our brain works. Some things are remembering in the long term, and some in short-term. Often students come to the exam and says 'I taught, but I forgot'. However, it is important to know how to learn.

O UNIVERZITETU

Počeci Univerziteta datiraju iz 2006. godine osnivanjem Fakulteta za privrednu i tehničku logistiku. Neposredno nakon toga, dobiva se rješenje za otvaranje i početak rada Ekonomskog fakulteta Travnik. Uz konstantni i predani rad menadžmenta i stručnog tima fakulteta, Ministarstvo obrazovanja, nauke, kulture i sporta SBK/KSB donosi i rješenje o otvaranju Saobraćajnog fakulteta Travnik. Sa akademskom 2010/2011. sa radom počinje i Ekološki fakultet kojim se studijski program proširuje na nastavno-naučne oblasti prirodnih nauka. Tako su stečeni uslovi za integraciju Internacionalnog univerziteta Travnik (IUT), što je ozvaničeno rješenjem Vlade SBK br. 01-02-492/09 od 31.12.2009. godine. Proces integracije završen je u maju 2010. Od akademске 2011/2012. godine IUT dobiva još dvije organizacione jedinice i to Pravni fakultet, Fakultet za medije i komunikacije a od akademске 2015/2016. godine Fakultet informacionih tehnologija.

Cilj Internacionalnog univerziteta Travnik je da uspostavi saradnju sa elitnim fakultetima u Evropi i svijetu koji će pružiti studentima veću mogućnost izbora i vlastitog uticaja na kreiranje programa koje slušaju i polažu, kao i studiranje na partnerskim institucijama.

Od samog početka organizacija i izvođenje studijskih programa se temelji na Bolonjskoj deklaraciji.

Nastajanje, rast i razvoj ovog Univerziteta obilježeno je potrebom da se u jednom, geografskom i privrednom smislu vrlo značajnom području, obrazuju stručnjaci koji bi postali osnovni nositelj privrednog razvoja ovog dijela Bosne i Hercegovine. Istodobno, cilj je bio stvaranje nukleusa znanstvene misli i mjesto stalnih inovacija znanja privrednika ovog i susjednih područja.

Dana 23.5.2016.godine u prostorijama Ministarstva obrazovanja, nauke, kulture i sporta Srednjobosanskog kantona/Kantona Središnja Bosna, dodijeljena je institucionalna akreditacija Internacionalnom univerzitetu Travnik. Akreditacija je formalna potvrda o ispunjenosti kriterija za akreditaciju koje propisuje Agencija za razvoj visokog obrazovanja i osiguranje kvaliteta. Značaj akreditacije za studente se ogleda kroz postavljanje Univerziteta na domaću i svjetsku listu akreditovanih univerziteta i kroz lakšu i veću mobilnost studenata.

ABOUT UNIVERSITY

The early beginnings date from 2006 when the Faculty of economic and technical logistics was established. Immediately after, the decision on opening the Faculty of Economics was reached. Three years later with constant and dedicated work of faculty management and expert team, Ministry of education, science, culture and sports of Middle Bosnia Canton also reached the decision on opening Faculty of Transport and Traffic Engineering Travnik. In the beginning of academic 2010/2011 the Faculty of Ecology has begun its work by which studying programme was expanded with teaching-scientific areas of natural sciences. This is how the University satisfied requirements for the integration of International University Travnik (IUT) which was made official by resolution of Government of Middle Bosnia Canton no. 01-02-492/09 dated 31st December, 2009. The integration process was acquired in May 2010. From academic 2011/2012 IUT gets more organizational units- Faculty of Law and Faculty of Media and Communications and from 2015/2016 Faculty of Information Technologies.

The main goal of this faculties is to establish cooperation with high-quality faculties over the Europe. This will make possible for students to have variety of possibilities of studing on partners institutions and to influence on creating programme they attend.

Since its beginning, organization and performing studies have been based on Bologna declaration.

The formation, growth and development of the University was marked by the need of educating experts in a geographically and economically very important area, who would become the main holder of economic development in this part of Bosnia and Herzegovina. At the same time, the objective was to create a nucleus of scientific thought and a place of constant innovation of knowledge of the business in this and neighbouring areas.

On 23th May 2016. in the Ministry of Education, Science, Culture and Sport of Central Bosnia Canton / Canton Central Bosnia, was awarded institutional accreditation to the International University Travnik.

Accreditation is a formal confirmation of the fulfilment of the criteria for accreditation set by the Agency for Development of Higher Education and Quality Assurance. The importance of accreditation for students is reflected in the setting up of the University on the domestic and world list of accredited universities and through easier and greater mobility of students.

ERASMUS+ PROGRAM MOBILNOSTI

Međunarodna saradnja na Internacionalnom univerzitetu Travnik aktivno se realizuje od 2016. godine. Međunarodna saradnja se promoviše kroz studijske posjete, zajedničke projekte, razmjene itd., sa regionalnim i međunarodnim visokoškolskim ustanovama.

Mobilnost je označena kao izrazito važan faktor u modernom pristupu obrazovanju, te Internacionalni univerzitet Travnik shodno globalnom trendu po ovom pitanju nastoji da uspostavi programe koji će kroz privremeni boravak na drugim visokoškolskim institucijama omogućiti studentima sticanje znanja i vještina potrebnih za konkurentnost na tržištu rada.

Na IUT od 2016. do 2018. godine bile su ukupno 31 mobilnosti kroz Erasmus+ program mobilnosti. Od toga najveći broj otpada na odlaznu mobilnost nastavnog i nenastavnog osoblja (14), zatim broj odlaznih studenta (9) i broj dolaznog nastavnog i administrativnog osoblja (7), a broj dolazne mobilnosti studenata (1) je najmanji, te se treba raditi na poboljšanju ovog segmenta. U 2017. godini imali smo najveću ukupnu mobilnost u odnosu na 2016. i 2018. godinu. Univerziteti sa kojima je ostvarena mobilnost su univerziteti iz Litvanije i Poljske.

IUT je potpisao ukupno 43 sporazuma o međunarodnoj saradnji sa visokoškolskim ustanovama na međunarodnom nivou od 2016. do 2018. godine. Kroz razne aktivnosti kao što su organizovanje zajedničkih studijskih programa, konferencija i predavanja realizovalo se ukupno 15 sporazuma od 2016 do 2018. godine.

ERASMUS+ MOBILITY PROGRAM

International cooperation at the International University Travnik has been actively pursued since 2016. International cooperation is promoted through study visits, joint projects, exchanges, etc., with regional and international higher education institutions.

Mobility has been identified as a very important factor in the modern approach to education, and International University Travnik, in line with the global trend in this regard, seeks to establish programs that, through temporary residency at other higher education institutions, will enable students to acquire the knowledge and skills needed to compete in the labor market.

At IUT from 2016 to 2018, there were a total of 31 mobilities through the Erasmus + Mobility Program. Out of this number, outgoing mobility of teaching and non-teaching staff (14) is the largest, followed by outgoing students (9) and incoming teaching and administrative staff (7), while the number of incoming student mobility (1) is the smallest, and work is needed on improving this segment. In 2017, we had the highest total mobility compared to 2016 and 2018. Universities with which mobility has been realized are universities from Lithuania and Poland.

The IUT has signed a total of 43 international cooperation agreements with higher education institutions internationally from 2016 to 2018. Through various activities such as organizing joint study programs, conferences and lectures, a total of 15 agreements were implemented from 2016 to 2018.

Osnovni misioni pravci Internacionalnog univerziteta Travnik su:

- ✓ Oplemenjivanje ljudskih resursa i pretvaranje u ljudske potencijale jačanjem istraživačkog pristupa programima koji moraju biti prilagođeni obrazovnim standardima.

BOLONJSKI PROCES

Studiranje prema bolonjskoj deklaraciji i ECTS

Prema Okvirnom zakonu o visokom obrazovanju Bosne i Hercegovine, koji je uskladen sa bolonjskom deklaracijom, na akademskim studijama postoje tri ciklusa: dodiplomske akademske studije (u trajanju od 3 i 4 godine) i postdiplomske akademske studije (magistarski u trajanju od 2 i 1 godine i doktorski studij u trajanju od 3 godine).

Osnovne karakteristike studiranja po bolonjskom procesu su:

- ◆ Sistem vrednovanja predmeta je izražen u ECTS bodovima,
- ◆ Student u prosjeku radi 40 sati sedmično,
- ◆ Ukupno opterećenje studenata sastoji se od pohađanja predavanja i vježbi, konsultacija, priprema za nastavu, seminarских radova, projekata i završnih radova,
- ◆ Opterećenje studenta u jednoj akademskoj godini je 60 ECTS-ova, odnosno 30 bodova u jednom semestru;
- ◆ Jedan bod odgovara 25 – 30 sati rada studenta,
- ◆ Bodovi se dodjeljuju svakoj nastavnoj komponenti studijskog programa (predmet, modul, studijski program, diplomski rad itd.),
- ◆ Studentu se bodovi za pojedini ispit dodjeljuju tek nakon što je taj ispit položio,
- ◆ Bodovi nisu ocjene niti ih zamjenjuju.

Trajanje studija :

- ✓ **I ciklus studija** – završavanjem dodiplomskog studija student stiče 180 ili 240 ECTS-ova, odnosno studij traje 3 ili 4 akademske godine;
- ✓ **II ciklus studija** – zajedno sa I ciklусom studija traje pet godina i student stiče 300 ECTS-ova (model $3 + 2 = 180$ ECTS + dodatnih 120 ECTS i model $4 + 1 = 240$ ECTS + dodatnih 60 ECTS);
- ✓ **III ciklus studija** – traje 3 godine, odnosno zajedno sa prethodna dva ciklusa 8 godina i student stiče ukupno 480 ECTS-ova (model $3+2+3 = 180$ ECTS + 120 ECTS + 180 ECTS i model $4+1+3= 240$ ECTS + 60 ECTS + 180 ECTS).

Studying according to the Bologna Declaration and ECTS

According to the Outline Law on High education in Federation of Bosnia and Herzegovina, which is coordinated with Bologna declaration, there are three academic cycles: basic academic studies and postgraduate master studies and postgraduate doctoral studies.

Study programs of International University Travnik are based on European system of credits transfer and acquisition (European Credit Transfer System – ECTS), in other words, so called, credit system of study.

Main characteristics of studying according to the Bologna Declaration are:

- ◆ System of scoring is based on ECTS
- ◆ During the week, the average student work is 40 hours
- ◆ Total student's load consists of attending classes, consultations, preparations for classes, seminar works, projects and final papers
- ◆ Student load in one academic year is 60 ECTS or 30 ECTS by semester
- ◆ 1 ECTS is equal to 25 – 30 hours of student's work
- ◆ Credits are assigned to every teaching component of study programs (subject, module, study program, final paper, etc.)
- ◆ ECTS for specific subject are assigned to students after he passes the exam
- ◆ ECTS are not grades neither a replacement

Duration of study:

- ✓ **I cycle of study** – finishing I cycle of studies student gains 180 or 240 ECTS, or the study program lasts 3 or 4 academic years
- ✓ **II cycle of study** – lasts five years along with I cycle of studies and student gains 300 ECTS (model 3 + 2 = 180 ECTS + 120 ECTS and model 4 + 1 = 240 ECTS + 60 ECTS)
- ✓ **III cycle of study** – lasts 3 years or 8 years along with two previous cycles and student gains 480 ECTS in total (model 3+2+3 = 180 ECTS + 120 ECTS + 180 ECTS and model 4+1+3= 240 ECTS + 60 ECTS + 180 ECTS).

IUT upisuje studente na osnovu Odluke o upisu. Odluku o upisu donosi IUT uz saglasnost Ministarstva obrazovanja, nauke, kulture i sporta SBK / KSB.

STUDENTSKI PARLAMENT

Studenti IUT-a svoje aktivnosti provode prije svega kroz učešće u Studentskom parlamentu IUT-a, zatim samostalno ili grupno učestvuju na značajnim takmičenjima iz oblasti njihovog interesovanja i školovanja, stoga smo u ovom dijelu izdvojili samo neke značajne uspjehe koje su ostvarili.

Studentski parlament Internacionalnog univerziteta u Travniku (SPIUT) je nevladina, dobrovoljna, vanstranačka, neprofitna studentska organizacija sa područja Srednjobosanskog kantona, ulica Aleja Konzula – Meljanac bb, čiji članovi su studenti (redovni i vanredni) sa osnovnim ciljem i zadatkom zaštite i promicanja prava i interesa studenata Internacionalnog univerziteta Travnik.

Ciljevi i zadaci SPIUT-a su:

1. Zaštita i zastupanje obrazovnih, društvenih, kulturnih i drugih prava i interesa studenata;
2. Zaštita standarda i socijalnog statusa studenata;
3. Utjecanje na kvalitetu studija te na puno poštivanje studentskih prava i sloboda;
4. Promicanje prava kao struke i nauke;
5. Doprinos razvoju modernog univerziteta;
6. Doprinos ostvarivanju slobodnog, demokratskog, pluralnog, tolerantnog, socijalno pravednog i nenasilnog društva;
7. Povezivanje i saradnja sa drugim studentskim, omladinskim i sličnim organizacijama na Univerzitetu i šire, kako u Bosni i Hercegovini tako i u inostranstvu.

Unutar svog rada aktivni članovi Studentskog parlamenta učestvuju u raznim aktivnostima kod organizacije projekata za obilježavanje Dana Općine Travnik, humanitarnih akcija, takmičenja, obilježavanje značajnih datuma itd.

STUDENT PARLAMENT

IUT students carry out their activities primarily through participation in the Student Parliament of IUT, independently or in groups participate in significant competitions in their field of interest and education, so in this section we have only highlighted some of the significant achievements they have achieved.

The Student Parliament of the International University Travnik (SPIUT) is a non-governmental, voluntary, out-of-the-art, non-profit student organization from the area of Central Bosnia Canton, in the street Aleja Konzula-Meljanac bb, whose members are full time and part time students with the primary aim and task of protecting and promoting rights and interests of students of the International University Travnik.

The goals and tasks of SPIUT are:

1. Protection and representation of educational, social, cultural and other rights and interests of students;
2. Protection of students' standards and social status;
3. Influence on the quality of the studies and on the full respect of student rights and freedoms;
4. Promoting rights as a profession and science;
5. Contribution to the development of a modern university;
6. Contribution to the achievement of a free, democratic, plural, tolerant, socially just and non-violent society;
7. Connecting and collaborating with other student, youth and similar organizations at the University and beyond, both in Bosnia and Herzegovina and abroad

Within its work, active members of the Student Parliament participate in various activities in the organization of projects for marking the Day of the Municipality of Travnik, humanitarian actions, competitions, marking of significant dates, etc.
